WARNING: PHOTOSensitivity/EPilepsy/SEIZures

READ BEFORE USING YOUR PLAYSTATION®2 COMPUTER ENTERTAINMENT SYSTEM.
A very small percentage of individuals may experience epileptic seizures or blackouts when
exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds
on a television screen or when playing video games may trigger epileptic seizures or blackouts in
these individuals. These conditions may trigger previously undetected epileptic symptoms or
seizures in persons who have no history of prior seizures or epilepsy. If you, or anyone in your
family, has an epileptic condition or has had seizures of any kind, consult your physician before
playing. IMMEDIATELY DISCONTINUE use and consult your physician before resuming gameplay
if you or your child experience any of the following health problems or symptoms:
- dizziness
- disorientation
- altered vision
- seizures
- eye or muscle twitches
- loss of awareness
- any involuntary movement or convulsion
RESUME GAMEPLAY ONLY ON APPROVAL OF YOUR PHYSICIAN.

Use and handling of video games to reduce the likelihood of a seizure
- Use in a well-lit area and keep as far away as possible from the television screen.
- Avoid large screen televisions. Use the smallest television screen available.
- Avoid prolonged use of the PlayStation 2 system.
- Take a 15-minute break during each hour of play.
- Avoid playing when you are tired or need sleep.

Stop using the system immediately if you experience any of the following symptoms:
lightheadedness, nausea, or a sensation similar to motion sickness; discomfort or pain in the
eyes, ears, hands, arms, or any other part of the body. If the condition persists, consult a doctor.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:
Do not connect your PlayStation 2 system to a projection TV without first consulting the user manual
for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your
TV screen.

JACK THE ENEMY AND THEIR POWER IS YOURS

An evil force is stripping Wumpa Island of its resources and turning its innocent citizens into vicious mutant soldiers. If that's not bad enough, Crash's sister Coco has been kidnapped and an enormous robot of mass destruction is being pieced together gear by devastating gear. It looks like Crash's island paradise is about to become history - the BAD kind!

Could Dr. Neo Cortex really be smart enough to harness all this evil power, or is someone smarter working behind the scenes? Crash and Aku Aku must harness the strength of the malevolent mutants with the power of Mojo Magic, or the world will pay a terrible price.

HOW TO PLAY

The object of the game is to rescue Crash's sister Coco, stop the enormous robot of doom and save Crash's island paradise! Easy, huh?

As your journey begins, your first goal is to rescue Aku Aku, Crash's trusted friend and ally. From there, your major goals are to complete fights against groups of enemies or simply progress through the level as you attempt to stop Dr. Neo Cortex's nefarious plans. Along the way, Crash will encounter many fierce creatures. You can choose to defeat them or use Aku Aku's Mojo Magic to control them, turning them into your weapons of mass destruction!

Crash starts the game with three lives. Keep an eye on the health bar - if Crash loses his last life, it's Game Over and you'll have to start the level over. Don't worry too much though. You can find additional lives along the way.

THE END LEVEL SCREEN

When you beat a level, you earn a voodoo trophy rank: no medal awarded, bronze, silver or gold. You improve your rank one level by accomplishing one of three things:
- Defeat a set number of minions in the episode
- Find Cortex's three spy toilets
- Score a minimum combat hit combo

THE GAME HUB SCREEN

After you receive your voodoo trophy, there are many options to choose from:

UPGRADES

When you defeat enemies or destroy objects, they release magical Moju. Collect enough Moju, and Crash will earn an ability upgrade or even a new move!

There are many moves that you can unlock by earning Moju:

<table>
<thead>
<tr>
<th>Triple Dragon</th>
<th>Chin Tickler</th>
<th>Board Slam</th>
<th>Spin Dismount</th>
</tr>
</thead>
<tbody>
<tr>
<td>▲ ▲ ▲ while timing each button press as Crash touches the ground</td>
<td>▲ ▲ ▲ plus a well-timed ▲ adds the board slam finisher</td>
<td>Rotates ▲ 360 degrees and then press ◦ to instantly finish off a jacked enemy</td>
<td></td>
</tr>
</tbody>
</table>

HINT: You earn a free life for every 25,000 Moju collected.

POWER-UPS

There are lots of things to find as you explore and fight.

Wumpa Fruit – Yummy! Look for these when Crash is low on health.

Mojo Multiplier – All objects and enemies will give double the amount of Moju for a short period of time. So get to work, quick!

Free-jack – This golden mask temporarily gives Crash incredible strength. Knock out any enemy with a single blow!

Feather – Feathers boost your board-sliding speed. Collect them to blast over canyons and other dangers.

Golden Wumpa Fruit – Eating one of these rare fruits earns Crash an extra life.

OTHER REWARDS

Keep your eyes open for hidden voodoo dolls. They will unlock concept art for each episode.

HOW TO JACK AN ENEMY

Attack your enemies with ferocity! The star-meter over their heads shows how close they are to being stunned. When the enemy is stunned, ◦ appears over it. Press ◦ to jack it and put it under Aku Aku’s magic spell, giving you complete control of the enemy.

HINT: If you don’t keep up your attacks, the star-meter will empty. Don’t give your enemy a chance – fight hard and fast.

HOW TO BE A GREAT FIGHTER

To be a successful fighter, you need to know that Crash and all jacked enemies have different strategies available to choose from:

<table>
<thead>
<tr>
<th>Block</th>
<th>Light Attack</th>
<th>Block Breaker</th>
<th>Dodging</th>
</tr>
</thead>
<tbody>
<tr>
<td>You can protect yourself from light attacks by blocking with R1</td>
<td>If an enemy is winding up for a slow heavy attack, hit them quickly by pressing ◦ to interrupt their attack.</td>
<td>If your opponent is blocking, use your heavy attack (▲). Just remember, if they are bigger than you, you have to hold the button until it’s charged up to break through their block.</td>
<td>If you are blocking (R1) and the enemy is winding up for a heavy block-breaking attack, use L to perform a quick roll.</td>
</tr>
</tbody>
</table>

Advanced Tip: If an enemy blocks while you are mid-way through a light attack combo, quickly tap your block key to interrupt the attack, then use your block breaker on them.

CONTROLLING ENEMIES

Melee Enemies – Up close and personal. While jacked, your controls are very similar to Crash’s.

Light (quick) Attack | Press ◦ |

Heavy (slow) Attack | Press ▲ |

Special Attack | Press ◯ |

Block | Press and hold R1 to block |

Un-Jack/Jack | Press ◦ to dismount/jack directly to another stunned enemy. |

Projectile Enemies – Take them down from afar. Beware – Some enemies can shoot.

Quick Fire | Press ◦ |

Precision aiming mode | Hold R1 to bring up the aiming reticle. Aim with ◦, lock on with ◯, and press ◦ to shoot |

Melee attack | Press ◦ to attack nearby enemies |

Using Enemy Special Attacks

When your Titan Meter is fully charged, you can unleash a terrifying special attack. Press ◯ to activate the enemy’s special power. In-game tutorials will provide detailed explanations of these abilities.

On Projectile enemies, hold R1 to activate aiming mode and aim, then assign targets with ◯.
The Power of Destruction
To break large objects, you will need the power of the enemies. If you attack an object and it shakes but remains undamaged, it means you do not have the power — you’ll need to jack a bigger enemy.

MULTIPLAYER CO-OP MODE
Press □ on controller 2 at any time to join the game in Co-op play. Player 2 will appear in Player 1’s backpack. Press ◇ to enter or exit your friend’s backpack. If the situation is too dangerous, a sound will be heard and you won’t be able to get out at that time.

Use the power of teamwork to overpower enemies and collect Mojo faster. Jump out of the backpack when enemies appear for twice the punchy-punch! Jump into your friend’s backpack when precise jumping is needed. You know what they say about too many bandicoots in the kitchen!

Choose between two modes of Co-op play:

Leapfrog Mode:
Work together as you swap control each time you tackle a new jump, swing or slide. It’s truly the most cooperative platform game ever!

Piggyback Mode:
Use your skills and weaknesses to conquer the game your way. Take a break from the challenge and hide out in your buddy’s backpack whenever the action gets too intense or leap to your friend’s aid when the going gets tough. Talk to your partner. Communication is the key!
